Jordan Jamali

Methodologies: Object-Oriented Programming, Agile/Scrum Development, REST

Projects

JungleDiff — React, HTML/CSS, PostgreSQL, Django 🗘

Dec 2020 - Jan 2021

- Developed web application that displays analyses and insights on user gameplay from their League of Legends matches using the Riot Games API
- Implemented RESTful API format to manage and database player information with Django and PostgreSQL, and optimized software to minimize server requests to the Riot Games API
- Used Python ML library to fit data from users' games to a logistic model
- Designed and developed frontend website using React to be both mobile and desktop friendly

Email Server and Client — Java 🖸

Sep 2018 - Mar 2019

- Created email server/client allowing users to send, receive, and sort emails; perform CRUD operations
- Applied programming principles including hierarchies, encapsulation, modularism, objectoriented programming, and utilized linked lists and trees to efficiently manage a large quantity of emails
- Gained significant experience in backend development, data management, and servers

Interactive Discord Bot (Oxford Hacks) — Python, mySQL, Adobe CC 🗘

Nov 2020

- Developed an integrative and intuitive way for online university students and study groups to track due dates and deadlines through a Discord bot using Python
- Accepts commands to perform CRUD operations parses event name, description, and date, saves it in a mySQL database, and returns human readable, formatted information on demand
- Designed profile icon using Adobe CC

Work Experience

Nest General Contractors — Contractor Assistant

Jul 2017 - Sep 2020

- Provided second opinions to contractor in design and construction of both residential and commercial projects to optimize working efficiency and reduce labour costs and hours by 20%
- Applied various construction techniques such as drywalling, setting concrete, setting up HVAC, while using a wide variety of power tools including table saws, drills, oscillators, nail guns

Waldman & Associates — File Manager

Jun 2015 - Jan 2016

- Categorized, sorted, scanned, and shredded legal files
- Parallelized sorting and scanning system to improve efficiency of file processing by 25%

Education

University of Waterloo — BASc Candidate, Biomedical Engineering

Sep 2020 - Apr 2025

Cumulative 3.88 / 4.00 GPA

Interests

Writing, Songwriting and Electric Guitar/Bass (Rock Band!), Video Games, Chess, Philosophy
